Dear new citizen

Welcome to the municipality of Kolding - a nice place to live and a place where design, culture, history, nature and sports make people and companies thrive and grow.

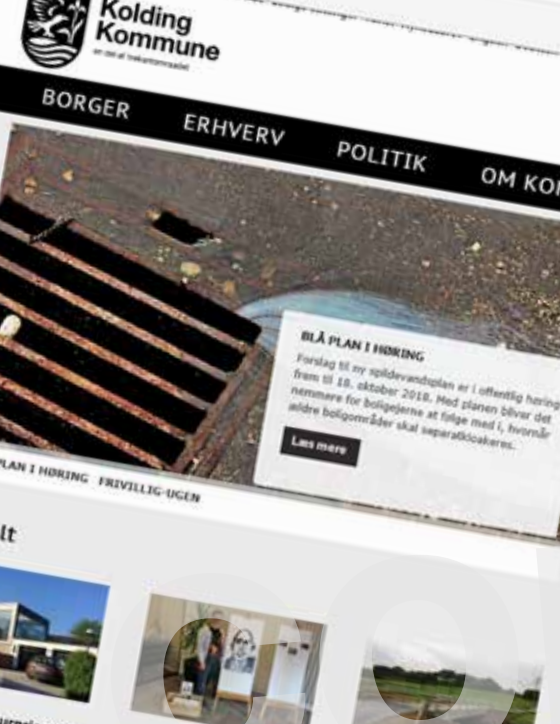

I would like to welcome you to our municipality by inviting you free of charge to some of the cultural activities and leisure time events that we are so proud to have.

It would be a pleasure for me to show you the municipality, so please participate in one of our three annual bus-tours.

We will show you a selection of the cultural and historical peaks in the municipality, as well as some of our most extensive development-projects.

See dates and register for the bus-tour at www.kolding.dk/bustur

Enjoy!

Welcome to the Municipality of **Kolding**

Most information can be found on the website

Our ambition, in all relations, is to render good service to everyone in all situations, whatever the need may be.

At our website www.kolding.dk you can read about our various services.

Here you will also find information about our office hours, and what to explore in your new municipality.

The website also provides access to the digital self-service solutions where you, among other things, can: Notify the authorities of a change of address, change doctor or register your child in day care.

At www.oplevelskolding.dk you will find a lot of inspiration for things to do in Kolding in your sparetime.

Kolding Libraries

Kolding Libraries offer a great chance for you to meet new people and to become a part of many different communities.

Share your experiences in the various cafes: Café of winterbooks, café of culture or in the clubs for listening and reading.

Keep an eye out for arrangements on koldingbib.dk or come to the library and have a chat with us.

Please note that we do have several locally placed libraries and stations many places within the municipality. To get an overview of them go to koldingbib.dk/biblioteker

Harteværket

The exploratorium is located only 3 km. from Kolding City. The plant was built in 1918-1920 and opened in 2016 as a modern recreational and educational center, offering lots of fun to both children and adults. Behind the hydroelectric plant you will find a number of water-related activities. The young children can enjoy an interactive installation where they can experiment with changing the flows of water through a labyrinth of canals. The older children can test out the laws of physics on dynamic water machines. You can also observe and study the circulation of water through the turbines all around the site. You may also indulge yourself with a walk in the beautiful nature, play and exercise on the hilly ground, rent a canoe or eat your lunchbox inside the wooden pavillon.
